VOL. 33 NO. 60

WASHINGTON C. H., OHIO, TUESDAY, MARCH 12, 1918

Ten Cents a Week

# AMERICANS CARRY OUT ANOTHER BRILLIANT RAID ON THE GERMANS

Many Germans Killed or Captured by Americans Who do Not Lose a Single Man.

Penetrate to Depth of 300 Yards And Obtain Much Valuable Material---Had No Aid.

German Raids on West Front Increase in Scope and Severity.

Sixty German Planes Raid Paris And Four are Brought Down.

By Associated Press Dispatch.

American troops again have raided successfully German positions. This time the raid was made on the sector northwest of Toul where the Americans hold a long line. Also they made the effort alone and penetrated the German lines for 300 yards without help from the French.

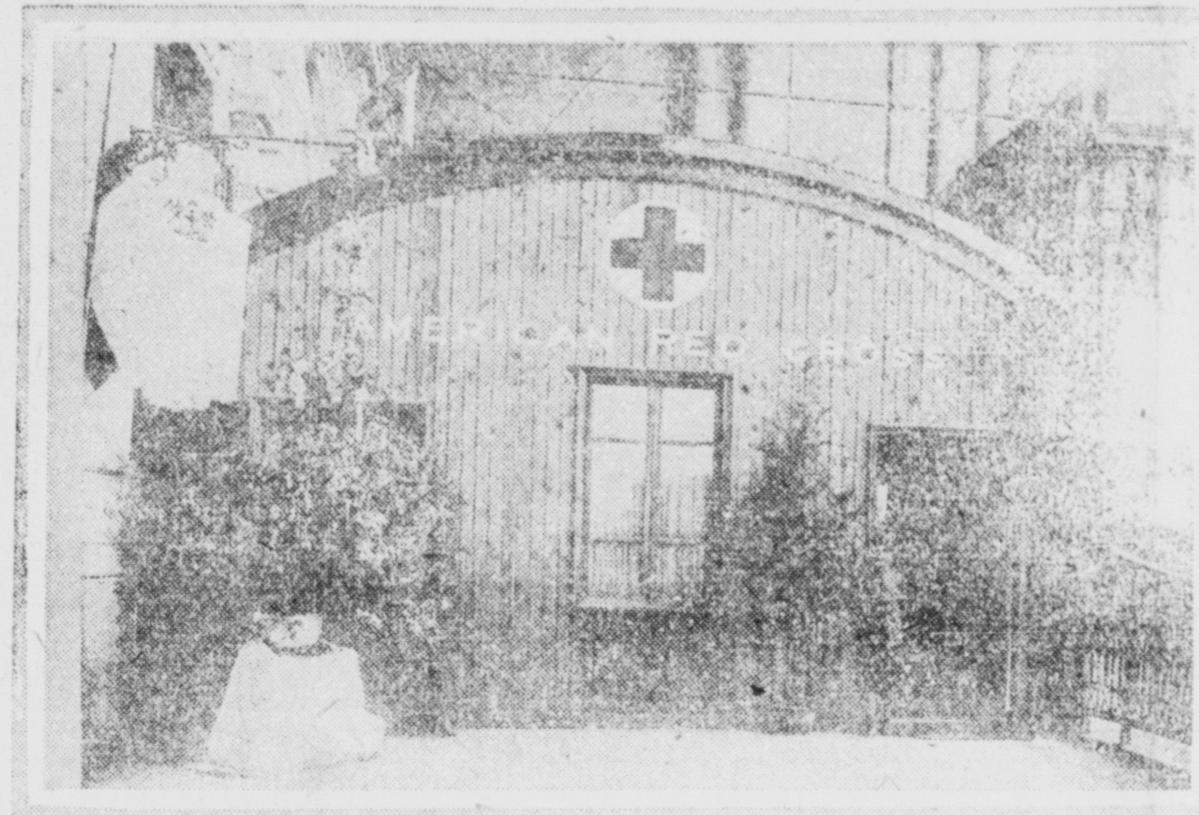

After an artillery bombardment of 45 minutes and behind a barrage the American raiders went into the enemy line and brought back much material and information.

Most of the Germans had retired to the rear lines. There was some hand to hand fighting however, with Germans who had been left in the dugouts and a number of these were killed and wounded. The Americans returned without the loss of a man, having spent 15 minutes within the enemy lines.

Elsewhere the German raids are becoming more numerous and stronger. Heavy bombardments now precede each German attempt to penetrate the Entente positions, although an engagement of battle proportions is probably not far distant.

Today has been set for the convening of the German Reichstag in Berlin to vote on the ratification of the treaty with Russia.

The Germans lost four airplanes in last night's attack on Paris. Nine squadrons of 60 planes took part in the raid.

RED CROSS CANTEEN FOR REFUGEES IN GENOA

AMERICAN RED CROSS IN ITALY

This shed doesn't suggest the characteristic architecture of Italy, but it is much appreciated by the Italians, nevertheless. Thousands of refugees passing on their way through Genoa to different points in Italy have found welcome as well as food here. The prompt construction of the Chalet and the immediate action given in meeting a desperate want, feeding the homeless--has brought from the Italian people a lasting sense of gratitude for America.

## SITUATION IN SIBERIA NOW MUCH DARKER

Bolshevik Troops, Aided by Former German Prisoners, Defeat Forces Opposing Bolsheviks.

Japan Has Not Yet Decided What Action She Will Take.

By Associated Press Dispatch.

Harbin, Manchuria, March 12.—General Semenoff, the anti-Bolshevik leader in Siberia, has retreated before the advance of a superior force, according to advices from the border.

The accuracy of the Bolshevik fire during the fighting is taken to indicate co-operation of former German prisoners.

Officials of the Allies at Harbin agree the situation in Siberia is growing worse. Every plan meets opposition or apathy.

## JAPS HAVE NOT DECIDED TO ACT

(Associated Press Cable)

London, March 12.—Japan has not yet come to a decision regarding the dispatch of troops to Siberia. Premier Terauchi declared in replying to a question in the House of Representatives, according to a Shanghai dispatch carrying Tokyo advices under date of March 9th.

## CUBA JOINS BORROWERS

By Associated Press Dispatch.

Washington, March 12.—Another ally became a borrower of the United

## LUXBURG IN CHILE

(Associated Press Cable)

Buenos Aires, Argentina, March 12. It is reported today that Count Von Luxburg, the former German minister, has fled Argentine territory, escaping to Chile.

According to Buenos Aires dispatches Sunday Luxburg has been granted a safe conduct by the British government to sail for Sweden.

In October the Count was placed in a German detention camp and later taken to a hospital in Buenos Aires, where he has been under treatment for insanity.

The Count came into prominence recently because of his objectionable activity in connection with the submarine warfare as it affected Argentine shipping.

The former minister is believed to have decided to escape when he saw the government renewing its efforts to get him out of the country. His escape on the event of his forced departure strengthens the belief here that he was making every effort to remain in South America to direct German agents in fomenting labor trouble and harassing allied shipping.

The former minister is believed to have decided to escape when he saw the government renewing its efforts to get him out of the country. His escape on the event of his forced departure strengthens the belief here that he was making every effort to remain in South America to direct German agents in fomenting labor trouble and harassing allied shipping.

It is expected an emergency also will be declared to exist that the state can take over work of rebuilding five miles of the road in Guernsey county.

Governor Cox and others will go to Cambridge Wednesday to meet with the commissioners of Guernsey county to discuss plans.

## TO CONTROL EXPRESS COS.

By Associated Press Dispatch.

Washington, March 12.—Government control probably will be extended shortly to the leading express companies, it was intimated today.

The companies are the Adams, American, Wells Fargo, Southern, Great Northern, Northern, Canadian and Western.

## REPAIR ROAD FOR 40,000 MOTOR TRUCKS

National Pike Will be Used for Transferring Thousands of Liberty Motors to Seaboard.

Squad or Repair Men Will Work Day and Night.

By Associated Press Dispatch.

Columbus, O., March 12.—The state of Ohio will take over private contracts for reconstruction of 12 miles of the National Pike in Muskingum county, put day and night forces on the highway so that army motor trucks being sent to the Atlantic seaports may use the route.

The decision was reached today at a meeting of the Governor, the Highway Commissioner and others, following a request from the War Department and Council of National Defense that the road be opened immediately.

Forty thousand trucks are to be sent from Ohio and western points over the route very soon.

It is expected an emergency also will be declared to exist that the state can take over work of rebuilding five miles of the road in Guernsey county.

Governor Cox and others will go to Cambridge Wednesday to meet with the commissioners of Guernsey county to discuss plans.

## SUB ATTACKS U. S. VESSEL

(Associated Press Cable)

A French Port, March 10.—An American steamship, formerly a German vessel, arrived here today with its bridge smashed and a shell hole through its smokestack as result of an encounter with a German submarine.

### ORCHESTRAL LEADER PLACED UNDER ARREST

Cincinnati, O., March 12.—(Associated Press Dispatch)—Enar Hermann, conductor of the Cincinnati Symphony Orchestra, was arrested today by the Federal authorities and charged with violating orders restricting his movements under the alien enemy act.

Orders from Washington caused his formal arrest and officials prepared to remove him to the Federal jail at Dayton.

### THESE TWO FIGHTERS BELIEVE IN SAFETY FIRST

TWO AMERICAN FIGHTERS OVER THERE

Two American fighters "over there" well fixed for a long hike. The men are about to start, fully equipped, on a long march from a French seaport to their training camp. Both have bought a loaf of war bread for use on the hike, and hit upon a novel plan of carrying the round loaves.

## MORE DRAFTED MEN WILL GO ON MARCH 29

95,000 Draftees in Almost Every State in the Union Move to Camps on Dates Named.

Ohio's Quota Will be 6955 Men. Will Include Some Second Quota Men.

By Associated Press Dispatch.

Washington, March 12.—A movement of 95,000 drafted men to begin on March 29th, and continue for 5 days was ordered today by Provost Marshal General Crowder.

The order calls troops from every state in the union except Iowa and Minnesota. It includes men remaining from the first draft and liable to call in the second.

The Ohio apportionment is 6,955 men. But two states will furnish more—New York and Pennsylvania.

Just how many men of second quota are affected by the order was not stated. It is understood the movements will virtually complete the first draft and it is part of the announced plan to call registrants in small groups as fast as they can be accommodated.

Men of Deferred Classification Will be Called in Small Groups as Well as Class I Men.

Equipment Will be Ready in April.

By Associated Press Dispatch.

Washington, March 12.—Provost Marshal General Crowder today made the first official announcement of the time of the second draft. It will be ordered as soon as Congress amends the law to compute the basis of apportionment in the number of registrants in Class One. For purpose of computation 800,000 men will be considered as composing the second draft, although no such number will be called at any one time.

Men in deferred classification would be called in small numbers as well as men in class one for the purpose of utilizing certain technical qualifications or sending them to school to acquire such information.

The Provost Marshal General makes the announcement that there will be no sudden great withdrawal of men from industry or agriculture during the coming summer, but will be withdrawn in small numbers throughout the year.

Supplies and equipment of the second draft would become available in April, and action on the desired legislation is expected by that time.

Sheriff James Welsh transferred all the prisoners in the county jail nearby to the city prison so there would be no danger. He was assisted in this work by his deputies and a number of police.

In the court house is one of the finest law libraries in the state, consisting of more than 9,200 volumes. It is believed they were all destroyed.

Several lines of hose were used to throw water on the southwest corner in which are kept all court records of the county. It is believed they are safe as they are in a fireproof room.

Two lines of hose were carried to the top of the sheriff's residence and from there water was played on the building, while the high tower was also brought into play.

## DEFINITE STATEMENT REGARDING DRAFTEES

No Sudden Withdrawal of Large Numbers of Men from Farm or Factory Will be Made.

Men of Deferred Classification Will be Called in Small Groups as Well as Class I Men.

Equipment Will be Ready in April.

By Associated Press Dispatch.

Washington, March 12.—Provost Marshal General Crowder today made the first official announcement of the time of the second draft. It will be ordered as soon as Congress amends the law to compute the basis of apportionment in the number of registrants in Class One. Two lines of hose were carried to the top of the sheriff's residence and from there water was played on the building, while the high tower was also brought into play.

## CLARK COUNTY COURT HOUSE IS WIPE OUT

By Associated Press Dispatch.

Springfield, Ohio, March 12.—Clark county's court house which will cost \$500,000 to replace, is in ruins as the result of an early morning fire which gutted the building.

Fire broke out at one o'clock this morning and was not under control until four o'clock.

The origin of the fire is a mystery.

The fire was thought to have started near the women's toilet on the second floor of the building. Shortly after the arrival of the department flames were shooting through the roof.

Seeing that the fire was beyond control, Fire Chief Samuel F. Hunter at once sent in a second alarm calling out all the fire apparatus of the city to fight the flames.

Hundreds of feet in the air the flames shot as they encircled the high tower, and fanned by a strong wind sparks were carried as far down as Spring street where a dwelling caught fire. One of the departments was sent there and soon put out the fire.

The court house is one of the finest law libraries in the state, consisting of more than 9,200 volumes. It is believed they were all destroyed.

Several lines of hose were used to throw water on the southwest corner in which are kept all court records of the county. It is believed they are safe as they are in a fireproof room.

Two lines of hose were carried to the top of the sheriff's residence and from there water was played on the building, while the high tower was also brought into play.

# COUNCIL ORDERS STREET FLUSHER FOR EARLY WORK

Ordinance Assessing Cost of Cleaning Upon the Abutting Property Is Passed - Work to Begin Early in April.

At a special session of the city council, Monday night, an ordinance was passed for cleaning the streets by flushing, and assessing the cost against the abutting property owners, as in other cities, and Service Director and Board of Control authorized to purchase a Studebaker, horse-drawn, power flusher, so that the work of cleaning the streets might be taken up as near April 1st as possible.

The flusher to be purchased is to cost \$1725, delivered in this city, and is to be delivered within three weeks, if possible, so that the work of flushing and cleaning the streets may be taken up early in April, as near the first day of the month as possible.

The number of times a street is to be flushed is to be decided upon by the Service Director, after proper experiments are made as to how often the respective paved streets of the city should be cleaned.

The plan of council is to employ a man and team to have charge of the flusher, and for the cleaning away of refuse washed into the gutter each time the streets are cleaned.

The vote for the proposal was unanimous, every member of the city council being present, and entering into the proceedings with a genuine desire to get something accomplished toward cleaning the streets.

## BIG SALE OF COWS

NETS OWNER \$6,000

Mr. B. A. Timmons, residing near New Holland, Monday sold his large number of dairy cows at public auction, the sale netting him over \$6,000. Forty of the cows averaged \$108 per head, and calves brought as high as \$51 per head.

The Red Cross Chapter of New Holland cleared \$150 at the sale, serving luncheon, and some of the men paid as high as \$5 for their dinner in order to aid the Red Cross as much as possible. Mr. Timmons donated a calf to the Red Cross.

BROWNELL INCUBATES EGGS, THREE CENTS PER EGG. 36 tf

## FORMER RESIDENT IS EXPERT SHOT IN SERVICE OF FLAG

Joseph Hayslip, printer, formerly of this city, is now an accomplished soldier, and while under 21 years of age when the Mexican trouble started, he was one of the men who occupied Vera Cruz some time during the war.

He had been in the Marine service sometime before that and was an expert rifleman at the time the Mexican trouble developed.

He has been promoted and now holds the position of Sergeant and is a good one. He is stationed at Quantico, Virginia, at the present time, but hopes to be sent overseas without delay so that he can get a whack in the community.

The banquet was given in honor of Miss Grace King, of Cleveland, who is sent out by the Printz Biederman Co., of that city, to the various stores that handle their merchandise for the purpose of arousing interest in better salesmanship, both in the stores and in the community.

After the supper was served Miss King gave a talk on selling in which she emphasized how important it is that a salesperson have a complete knowledge of the goods handled.

She said that seventy-five percent of the people who wait on trade behind the counter have never stopped to think where the goods they are selling, day after day, comes from, how it is made, to how many uses it can be put, how it is manufactured and what it costs to manufacture it. She suggested that salespeople consider these things and read trade journals for information, talk to traveling salesmen, and patronize the public library for books on the subject of salesmanship.

About one clean shirt is all I thought he would ever wear. He had fallen away to a mere shadow; was as yellow as saffron and often doubled up with pain. Doctors continually gave him morphine and were about to operate for gall stones. Mayr's Wonderful Remedy quickly restored him to perfect health again! It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does will convince or money refunded. Blackmer & Tanquary or Frank Christopher, Advt.

## LARGE NUMBER OF STUDENTS ENROLLED IN Y NIGHT SCHOOL

Seventy-five students are enrolled in the night school at the "Y". There are four courses open. They are: French, short hand, typewriting and bookkeeping.

Prof. Cardon of O. S. U. teaches French, Herman Fry, bookkeeping, Miss Haley, short hand and David Ferneau typewriting.

There is a greater variety of courses open and more enrolled than at any time in the existence of the night school at the "Y".

## ADDRESSES CLERKS OF CRAIG BROS. ON SALESMAHSHIP

Monday night at 6:00 o'clock the salespeople of the Craig Store gathered together at the Cherry Hotel for a little supper and an informal discussion of some of the problems that arise in the selling business. They were the guests of Mr. Thomas Craig and they were about sixty in number.

The banquet was given in honor of Miss Grace King, of Cleveland, who is sent out by the Printz Biederman Co., of that city, to the various stores that handle their merchandise for the purpose of arousing interest in better salesmanship, both in the stores and in the community.

After the supper was served Miss King gave a talk on selling in which she emphasized how important it is that a salesperson have a complete knowledge of the goods handled.

She said that seventy-five percent of the people who wait on trade behind the counter have never stopped to think where the goods they are selling, day after day, comes from, how it is made, to how many uses it can be put, how it is manufactured and what it costs to manufacture it. She suggested that salespeople consider these things and read trade journals for information, talk to traveling salesmen, and patronize the public library for books on the subject of salesmanship.

About one clean shirt is all I thought he would ever wear. He had fallen away to a mere shadow; was as yellow as saffron and often doubled up with pain. Doctors continually gave him morphine and were about to operate for gall stones. Mayr's Wonderful Remedy quickly restored him to perfect health again! It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does will convince or money refunded. Blackmer & Tanquary or Frank Christopher, Advt.

Miss Grace King.

Miss King also brought out strongly the idea that to be a good salesperson it is necessary to be a good mixer, to be able to converse on many subjects and thus make oneself agreeable to many different types of people. Therefore, she asserted, that a salesperson who is ambitious to get ahead and to forge to the top of his profession, must be a wide reader.

Miss King is a firm believer in the idea that the stores alone cannot bring about the vast improvements in selling methods that are bound to come, but she believes that it is up to the schools and the entire community to join in the campaign for better salesmanship and hence better business.

This afternoon at the invitation of Superintendent McClain, she gave a short talk at the High School Assembly in which she urged the importance of having a practical course in salesmanship in the high school to be just as great as that of having a course in stenography, or bookkeeping, or English.

Miss King said in part: "It is inevitable that this work will be put into the progressive high schools of the country sooner or later because it is pre-eminently practical. It fits boys and girls to go out and take positions immediately upon leaving school. It gives them an idea of how to meet people, how to handle situations, to be courteous, diplomatic, and make the most of their opportunities. Whether one expects to go into a department store, or become a traveling salesman or not, it makes no difference. Whatever business we go into we are all selling something, either merchandise, personality or service and that is why everyone should have a clear-cut definite course in the principles that underlie all selling."

Miss King spent the day in the Craig Store talking with the salespeople individually and doing what she could to give them selling helps.

## W. H. M. S. MEETING

The regular monthly meeting of the Woman's Home Missionary Society of Grace church will be an all-day meeting in the basement of the church on Wednesday, March 13th. Ladies are requested to bring lunch, rags for rugs, knitting and Home Missionary paper. The assisting hostesses are: Mesdames Hopkins, Patton, Davies, Pickering, McCoy, Cheney and Cross.

MRS. WM. MCCLAIN, Cor. Sec'y.

**I. O. O. F.** Regular meeting of Temple Lodge No. 227 I. O. O. F. Tuesday evening, at seven o'clock.

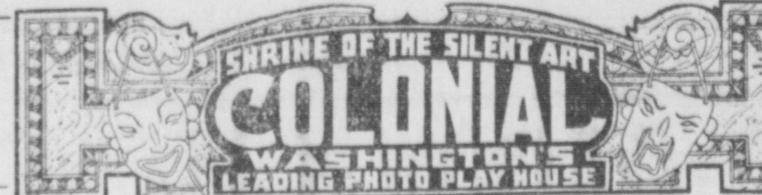

The Imperial Degree Staff will confer the first degree at 8 o'clock. A large attendance desired. Visiting Brothers cordially welcome.

## GENERAL CLEAN-UP WEEK NEAR AT HAND

The first week in April has been set aside by the city authorities as a general clean up, paint, up period, during which ever citizen of Washington is expected to not only clean the alley about his premises and his yardage, but also to remove from fence and garrett all surplus material likely to result in fire.

In other words it is expected that every person will do his and her part toward removing unsightly and unhealthy refuse liable to injure health, but to remove fire dangers just as much as possible. This latter refers particularly to business houses, where the storing paper and excelsior greatly increase fire dangers.

The general clean up campaign is to be followed the first week in April all over the state.

Wake up! Clean up! First week of April.

Miss King said in part:

"It is inevitable that this work will be put into the progressive high schools of the country sooner or later because it is pre-eminently practical. It fits boys and girls to go out and take positions immediately upon leaving school. It gives them an idea of how to meet people, how to handle situations, to be courteous, diplomatic, and make the most of their opportunities. ## "Might Is Right."

At a recent congress of the German Conservative party General Von Leibert was the principal speaker, representing the war party of Germany. In his speech he said in part:

"For us there is only one principle to be followed, and we must recognize no other. We hold that Might is Right. We must know neither sentiment, humanity, consideration, nor compassion."

This is the foundation of German Kultur and logic, and if this system prevails mankind will go back to the lowest form of savagery, for if Might is Right no laws for the protection of the weak are possible; in fact, there would be no law except the will of the strong.

He says further in his speech: "We will incorporate Courland and bring into our own population 60,000,000 Russians. \* \* \* We must have Belgium and the north of France. The curse of God is upon the French people, which is as ungodly as it is infamous. \* \* \* France must be made to pay until she is bled white. \* \* \* I say we must have a strong peace."

A government and a people who propagate such sentiment deserve nothing but complete humiliation and to be made to beg for that mercy which they deny to all, even women and children. There will be no peace in the world, at least not a German peace, while the Prussian helmet rules in that country. We think it strange that a people whom we formerly thought to be of the highest civilization, and the leader in the arts and science, should become savages, and we look back in history for the cause.

The Prussian State was formed by Frederick the Great. We also find that the ruling family of Germany today is only following the propaganda as expressed by Frederick. Among some of his teachings we quote: "One takes where one can, one is wrong only when one is obliged to give back."

"No ministers at home but clerks. No ministers abroad but spies."

"Form alliances only in order to sow animosities."

He also advises the breaking of treaties when it is to the advantage of Prussia. These are the teachings from which the Kaiser gets his inspiration.

We have a bronze statue of Frederick the Great standing in front of the war office in Washington, a gift to the nation from the present Kaiser, a few years ago, after the visit of his brother, Prince Henry, over whom we made ourselves ridiculous, as he was a German spy sent here to get information for the use of the German Staff.

Congress even made an appropriation to entertain him, and our officials saw that he missed nothing.

If we allow this statue of Frederick the Great to stand we honor German brutality. It should be removed at once and there are many who think that it would be a benefit if made into bullets and these used for the execution of German spies.

This country through its President asks for no territory, nor indemnity, but only to be allowed to live as a free people under a democratic form of government, and this we will have if it takes the last man and the last dollar.

## A Debt to the Snow

Now that bright spring days have come and the discomfort of zero weather and impassable snow drifts begins to recede among the memories that we only bring out to punctuate unusual experiences, we are feeling a little kinder toward that winter of 1917-18.

Especially when we stop to remember that the snow which delayed transportation, blocked roads and made walking difficult was the same snow which blanketed our wheat fields and protected our soil.

Scientific authorities pronounce snow an agricultural resource and however much harm and inconvenience it may have caused in the cities, to farmers it was an asset in a season of late planting. The importance of snow in the early growth of winter wheat in regions where the winters are severe is well known.

Scientists tell us that wheat requires a temperature of about 40 degrees to germinate, and, while it does not grow at a lower temperature, the plants inhale oxygen and exhale carbonic-acid gas throughout the winter.

Besides serving as a blanket, a covering of snow prevents evaporation from the soil and prevents winter winds from tearing the dormant vegetation.

All over Fayette county there are fields where wheat, late in planting, seems well rooted and promises all that can be expected at this early season, and the fact that they have come through so severe a winter to carpet the earth in green fields and later pour out golden grain for the feeding of the world, is largely due to its protective covering of the snow.

## Poetry For Today

## GUARDING THE DOOR

Think not that I am far away,  
When fighting on a foreign shore;  
Rifle in hand, I watch and wait  
Outside your door.

I am at hand, however far  
From home the flag beloved I bore;  
Ceaseless the vigil that I keep,  
Guarding your door.

Trenches of Flanders, fields of France  
Or soaring as the eagles soar—  
It matters not; it means but this:  
I hold the door.

And when you gather to the hearth  
As darkness shrouds the wood and moor,  
Fear not; for in that night I stand  
To guard the door.

Who strikes at mine, he strikes at me,  
And you are mine. Then rest secure!

Rifle in hand, my day and night,  
I guard the door.

—Chicago News.

### MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard-Plaster Without the Burn or Sting

Musterole is a clear, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosty feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

## Social and Personal

The Browning Club will meet in regular session tonight, as this is the last meeting of the year a full attendance is desired.

Miss Regina Staubus, chairman of the Social Science and Philanthropy department, will have the program in charge.

Three papers touching upon questions of the day will be given: "Under the Red Cross Flag Abroad," Mrs. Mae Pearson Gage; "Learning for Earning, or for Life," Miss Blanche Tullis; "The Y. M. C. A. in the War," Mrs. H. L. Spray.

Miss Maxine Kibler will furnish the music.

A brilliant and beautiful affair of the Spring season was the Past Worthy Matrons and Past Worthy Patrons of Royal Chapter No. 29, O. E. S. banquet on Monday night, held in the banquet hall of the Masonic Temple.

Twenty-three covers were placed at a long table, to which big clusters

of pink and white tulips and greenery lent effective decoration.

A three course turkey banquet of delicious viands, somewhat restricted by the regulations of wheatless day and war-time necessity, was served under the direction of a committee including Past Matrons Margaret Colwell, Walter W. Hamilton, and Past Patrons, E. L. Bush and A. M. Bush.

The banquet hour was altogether delightful, and followed by decidedly original initiatory ceremonies in which the retiring Matron and Patron, Miss Clara Davis and Mr. Ralph Penn, were admitted to the association of Past Worthy Matrons and Patrons.

The ceremonies were largely humorous, for entertainment and were greatly enjoyed.

They were in charge of Past Matrons Martha E. Mark, Louise Henkle, Past Patrons A. M. Bush and Elmer Klever.

Mrs. Eva J. Penn, retiring president of the Past Matrons and Patrons Association, had the arrangements under general supervision.

Before adjournment the new officers were elected: Mrs. Lucy Perrilli, president; Dr. A. M. Bush, vice president; Miss Clary Davis, secretary and treasurer.

The following announcement in an Oklahoma City paper of February 14, will be read with interest by Washington relatives and friends of the bride.

Mrs. D. D. Young, 1129 W. 24th St., announces the marriage of her daughter, Dorothy Jane, and Clarence T. Copas, which will take place at 5:30 this afternoon in the study of Father Bernard Mutsaers.

Miss Gladys Davis will be bridesmaid and Harry Elbaldor best man. The young couple will live here. The groom is state representative for the National Match Co.

Miss Louise Melvin entertained a few intimate friends at an informal luncheon of beautiful appointments Sunday evening, in honor of her birthday.

A glass basket of pink and yellow tulips suggestive of springtime, graced the center of the table.

Mrs. George Melvin and Miss Ruth McCoy assisted the attractive young hostess in entertaining her guests.

The girls of Miss Louise Weaver's Sunday school class of the Methodist church, entertained eighty of their friends at a very enjoyable party, Monday night in the basement of the church.

Games, music and a contest in which Miss Lucile Boyer won the prize, added to the evening's pleasure.

Dainty refreshments were served. Mrs. Harry Rodecker, Mrs. C. E. Lloyd and Miss Miriam Fife assisted Miss Weaver in helping the girls entertain their guests.

Mrs. Albert Barney gave pleasurable entertainment to the Tuesday afternoon Kensington Club. A dainty afternoon was served.

Mr. and Mrs. Fred M. Mark are spending the day in Columbus.

Mrs. S. F. Snider, Mr. and Mrs. Logan Buzek spent Sunday in Chillicothe the guests of Captain and Mrs. Frank B. Hanlon (nee Elizabeth Snider).

## THE OLD RELIABLE STILL IN THE LEAD

## Social and Personal

Mr. and Mrs. Frank L. Hard (nee Hazel Miller) are receiving congratulations on the birth of a nine-pound son, Monday night, at their home on Briar Avenue. The baby has been named Gene Miller.

Mrs. George Jenkins of Jamestown was a shopping visitor here Tuesday.

Mrs. Frank L. Stutson left Tuesday for Chicago to visit her daughter, Mrs. Joseph H. Donnell, and family.

Mr. and Mrs. Charles McLean, Mrs. Frank C. Garrett and Mrs. Jesse Persinger made a motoring trip to Columbus Tuesday.

Mrs. A. C. Stone returned Monday to Wilmington after a visit with her sister, Mrs. Martha Gallup, and niece, Mrs. E. N. Holloway.

Rev. Wm. Boynton Gage spent Monday in Columbus.

Mrs. John Mader, Mr. and Mrs. John Woods, of Greenfield, were shopping visitors here Monday.

Miss Elda Severs has accepted a position in Craig Bros. Department Store.

Mrs. Louella Herbert of Columbus received a telegram Monday from her son Logan, stating that he had been moved from San Antonio, Texas, and is now in the East. Mrs. Herbert left Monday night for Hoboken, N. J., to see her son, who will be in the East a short time, before going across.

Mrs. Louis Huff and Mrs. J. E. Wilson of Greenfield were the guests of Mrs. Tom Hillery, the past two days, to attend the lecture given by Ezra W. Palmer, C. S. B., of Denver, Colo., at the high school auditorium last night.

Mrs. John Arnold left Monday for Chicago, where he will spend the coming summer with his daughters, Mrs. Edith Zedell and Mrs. J. C. Stewart.

Mrs. Glen Thornton returned Monday to Columbus after spending the past two weeks the guest of her parents, Mr. and Mrs. Elmer Baughn.

Mr. and Mrs. Glen Arnold, of Springfield visited Mr. and Mrs. Elmer Baughn of Dayton Avenue the past two days.

Mrs. Frank Hays went to Columbus Monday evening to spend a week in attendance at the Modart School of Instruction which is being held at the Deshler Hotel. The school is under the direction of Miss Bertha A. Stricker.

Mrs. Artha Purcell, of Jeffersonville spent Saturday with her son, Mr. and Mrs. Fred Purcell.

Mrs. J. V. Cooke is spending the day in Dayton, Ohio.

Miss Esther Boggs, of Bloomingburg is Mrs. Wert Shoop's guest for the week.

Mrs. Quinley Kinkaid of Bloomingburg, was the guest of Mrs. J. M. Willis Tuesday.

Mr. and Mrs. R. S. Quinn have returned from a visit with their daughter, Mrs. Robert B. Palmer, and family, in Cincinnati. They also visited Mrs. Quinn's sister, Mrs. James Glasecock, and niece, Mrs. James Bean, of Rio Janeiro, South America, who with her baby son are visiting Rev. and Mrs. Glasecock.

Captain W. B. Hershey came up from Chillicothe to spend Sunday with Mrs. Hershey.

Mrs. Anna Bush Coffman has returned from a visit in Columbus.

Mrs. J. P. Leavell and daughter, Miss Jessie Leavell, have as their guest Mrs. Clara Junkerman of New York city.

Thos. H. Ince Presents The One and Only

Wm. S. Hart, "The Two-Gun Man," in "The Bargain"

Positively his latest and greatest 6-reel Western Drama. Cool nerve; a pair of piercing, commanding eyes, and two deadly guns kept Jim Stokes, the "two-gun-man" in cash and satisfied his thirst for revenge. In this great production you will see Hart at his best; you will enjoy a swift plot, a great love story, a sensational climax and a red-blooded Western Drama staged as only Thos. H. Ince can do it. All exterior scenes were made in the Grand Canyon, the most picturesque spot in the West. The supporting cast, which includes Clara Williams, is excellent. Positively first time ever shown in this city.

Don't Forget the dates, Wednesday, Thursday, Friday, Matinee Each Day 2:30. Night 7:30

## MOTHERS' CIRCLE PUT CHORE CARDS IN PUBLIC SCHOOLS

### TESTED RECIPES FOR WAR TIMES

(NOTE—Have you contributed a recipe to this department? Do so at once, mailing or bringing recipes to The Herald office. We want YOUR recipes.—The Editor.)

#### Potato Bread Rolls

The following proportions will yield one dozen small rolls: 8 ounces (about 3/4 cup) mashed potatoes; 1 1/2 cups of sifted flour; 1-3 cake of compressed yeast; 2 table spoons of fat; 3/4 level teaspoonful of salt; 2 tablespoonsfuls of lukewarm water; 2 tablespoonsfuls of sugar. Boil, peel, and mash the potatoes.

Add the salt, the yeast rubbed smooth and mixed with the water, and lastly, two tablespoonfuls of flour. Let this mixture stand at a temperature of about 86 degrees F., until a touch will cause it to fall. Add to this sponge the fat, the sugar, and the remainder of the flour, and if necessary enough more flour to make a very stiff dough. Knead thoroughly until a smooth dough, which is no longer sticky, has been formed. Set back to rise again, and when the dough has trebled in volume, knead lightly, form into small balls, and place, not too close together, in greased pans. Allow to rise until double in volume, and bake 20 minutes in a moderately hot oven, (about 400 degrees F.).

These chore cards are issued as a record of Health Chores based on the rules of Modern Health Crusaders as a daily health guide for boys and girls. A tabulated record is given out by the teacher to each child, who returns them for grading, with the chores which have been done checked off. They are required to report on the following:

#### STATEMENTS OF CHORES

1. I washed my hands before each meal today.

2. I drank a glass of water before each meal and before going to bed today.

3. I brushed my teeth in the morning and in the evening today.

4. I took ten or more deep breaths of fresh air today.

5. I played out doors or with windows open more than thirty minutes today.

6. I was in bed ten hours or more last night and kept my window open.

7. I tried today to sit up and stand up straight, to eat slowly, and to attend to toilet and each need of my body at the regular time.

8. I took a full bath on each day of the week that is checked. The mothers of the circle feel that they, through these card reports, induce the children of the schools to follow these simple health rules they are accomplishing much that will be of practical benefit in the future health and happiness of the child.

Supt. McClain and the teachers heartily approve of the move.

Mrs. Clarence Baer, Mrs. Earl Barnett and Mrs. Ralph Penn were appointed a committee to arrange for the first annual open session of the circle to be held in May.

After a short program the circle adjourned to meet for the next program with Mrs. Clarence Craig.

The next Red Cross meeting will be held on Monday March 25th at the Red Cross work rooms.

## THE NARROW TRAIL

### GIVES A TALK ON CHRISTIAN SCIENCE TO LOCAL AUDIENCE

A gratifying audience assembled at the High School auditorium Monday evening and listened with much interest to a comprehensive lecture on "Christian Science" delivered by one of the foremost scientists, Ezra W. Palmer C. S. B., of Denver, Colo.

The following excerpts present the gist of the speaker's subject matter:

There is one great and all inclusive fact that should be engraved upon the minds and hearts of all peoples and that fact is that God is omnipotent, that God has all power, is infinite good, is ever present, and therefore ever available; a God of love who sends only good gifts to his children; a God who does not afflict and who is not the author of evil. When God is understood aright human thought is lifted into a consciousness of peace that is unmoved by the vicissitudes of time and mortality. When our feet are planted on the eternal rock of the abiding presence of God, we can survey with a serene mind the varied experiences of mortal existence because we know that all power resides in God, and that evil is a mere seeming which avails nothing against them who "abide under the shadow of the Almighty."

When we turn to Christian Science, however, we find that it is inflexibly logical. It accepts the Scriptural teachings of one omnipotent God and is, throughout, in harmony with the Bible. Christian Science not only admits the omnipotence of God but it likewise accepts the demonstrable fact that the omnipotence of good is available to meet our every need. It is self-evident that if God has all power there cannot possibly be an

### TAX-FREE

We have for sale now the following popular stocks, all non-taxable in Ohio. Scan the list carefully, make a choice, and call and place an order with us before they are all sold. You can take any number of shares you desire. Read:

500 shares Cleveland Bankers Guaranteed Mortgage stock, secured by Real Estate Mortgages. Dividends have been showing 6-2-3 percent on amount invested.

50 shares Sears & Nichols Canning Company 7 percent preferred stock at 102. One hundred shares common stock at par (100). This company operates 12 canning factories, and last January paid 7 percent on its preferred stock and 8 percent on its common stock.

60 shares Burton-Townsend Brick Company (Zanesville) 7 percent cumulative, participating preferred stock. This company has a large paving block, molders sand and coal business and much stock is owned in Fayette county. At par \$100 per share. Dividends payable quarterly.

60 shares West Jefferson Creamery Company, 7 percent preferred stock, at par, \$100 per share. Common stock \$200 per share. The West Jefferson butter and buttermilk are famous. Plants at Columbus and Zanesville. Dividends payable semi-annually.

In addition to the above non-taxable stocks we have for sale two-year 7 percent taxable Secured Gold Notes of the Cities Fuel and Power Company, price 99, yields 7 1-2 percent, interest payable semi-annually, principal payable December 1, 1919.

Also desirable farm and city properties for sale. Small truck farms, vacant lots \$150 to \$300. Buy a lot and garden it. Easy terms.

**HITCHCOCK & DALBEY,**  
Both Phones, Cockerell Building  
Washington C. H., Ohio.

other power with which to divide His kingdom. The omnipotence of God is eternal. God is also the one supreme Ruler, "the same yesterday, and today, and forever," for, as the Scripture declares, "The Lord God omnipotent reigneth."

#### IS THE POWER OF GOD AVAILABLE?

What evidence have we that the power of God is available? When we turn to the Bible we find that throughout the whole range of Bible history, patriarchs, prophets and disciples, men and women inspired of God, were enabled to overcome all forms of discord, hate, sin, disease, and even death itself. In this century a great volume of similar evidence has been presented by the Christian Science movement. Since Mrs. Eddy gave her teaching to the world, emphasizing the truth that God is the only power, hundreds and thousands of men and women have repeated the experiences of the great Bible characters, have attained similar spiritual vision and inspiration, have risen above the evidence of the corporeal senses and reached the consciousness that God is the only power, that man—His image and likeness—is perfect and immortal, and that God's children are not and cannot be the victims of sin, disease and death.

#### OLD TESTAMENT EVIDENCE

In the Old Testament narratives Joseph proved the power of God to protect His own in prisons and in kings' palaces. Through the power of God Moses freed a nation from the grip of autocracy. David, through reliance on the name of the Lord of hosts, the God of the armies of Israel, overthrew Goliath, and later escaped all the snares that envy, malice, and hate could invent to destroy him. Elijah raised from the dead the widow's son, and Elisha healed of leprosy Naaman, the captain of the armies of Syria. The Hebrew captives, cast into the fiery furnace, proved that flames and heat were powerless to harm the men who held steadfastly to the might and majesty of all-inclusive Spirit. Daniel, who retired three times each day to pray with his windows open toward Jerusalem, likewise escaped all the artifices of human hate and was so uplifted through faith in the all-power of God that he could read human thought, interpret dreams, and foresee the final destruction of all evil. To him also was revealed the glorious vision of the coming of the Son of man who shall execute judgment and whose dominion is an everlasting dominion, which shall not pass away, and his kingdom that shall not be destroyed." (Daniel 7:14.) And so the accounts of God's tender care and protection of His own, as recorded in the Old Testament, could be indefinitely extended, hence the exulting words of David, the sweet singer of Israel: "My soul, wait thou only upon God; for my expectation is from him. He only is my rock, and my salvation; he is my defense; I shall not be moved." (Ps. 62:5-6.)

#### THE TESTAMONY OF CHRIST JESUS

When we turn to the New Testament we find that the great exponent of the omnipotence of God was Christ Jesus. By reason of his sinless birth and sonship with the Father, he knew and expressed the will of God. The religious systems of his day claimed to teach the true worship of God. But these systems produced no results to prove that they were of divine authority. Jesus not only knew the power of God—he proved it by results. He proved that what the evidence of the corporeal senses claimed to be real was not real but illusion. Knowing that God is our Life and that "in him we live, and move, and have our being" he reversed the false claim that matter has life, intelligence, or power, either to injure or to bless mankind. Jesus never taught that God created matter or that God was in any way responsible for sin, sickness, or death. On the contrary, he exposed the unreal nature of these errors and destroyed them through the might of the Christ-Mind.

#### THE TESTAMONY OF APOSTLES AND EARLY CHRISTIANS

In the New Testament we find also that the twelve disciples went forth and healed; the seventy did likewise.

Paul, who was not at first a disciple of Jesus, also healed the sick and raised the dead, and for three centuries the early Christians recognized the practical healing as a part of the work of the church. Irenaeus, the Greek bishop of Lyons who lived at the close of the second century, assures us that all Christians possessed the power of healing; that they prophesied, cast out evils, healed the sick, and sometimes raised the dead. So long as the early Christians were strictly loyal to the spiritual teachings of Christ Jesus, to that degree did their religion possess the vital force which regenerated the human mind. The most inspiring page in history is the story of the redemptive power of the primitive gospel of Christ, transforming and regenerating men physically as well as spiritually despite the depths of depravity and sensuality into which the race had fallen.

But after a time the early Christians became lax in their loyalty to the teachings of their great spiritual Teacher. They began to modify his teachings, conforming them to the pagan and materialistic notions of the prevalent systems of thought about them. What was the result? The freshness and power of spiritual understanding was blighted, and spiritual healing, "the pearl of great price," was lost to the darkened vision of mortals. The human mind—darkened and mystified—could no longer yield to the healing power of God; hence spiritual healing disappeared and did not again appear for more than fifteen centuries when the Science of Christ's Christianity was again given to the world by a New England woman, Mary Baker Eddy.

#### THE DISCOVERER AND FOUNDER OF CHRISTIAN SCIENCE.

Christian Science was discovered by Mary Baker Eddy in the year 1866;

Her instant recovery from the results

of a serious accident, though the spiritual understanding of a passage in Matthew's gospel, was the falling apple which led to the unfolding of science Christianity. The time was

ripe for a new spiritual advance of the race. Great reformations had

taken place in religions during the preceding three centuries. The grip of hard and dogmatic creeds was

loosening, and the heart of humanity was being stirred by a clearer under-

standing of the Fatherhood of God and the brotherhood of man. The great

civil war had just been terminated which liberated the thoughts of this

nation from the error of human

slavery. Ever since the Puritan fore-

fathers had set foot on Plymouth

Rock, bringing with them the great

desires for democracy, religious free-

dom, and reverence for the Bible as

the sacred word of God, the leaven of

truth had been at work in the

thought of the expanding nation, pur-

ging it of some errors of superstition,

personal domination, dogmatism and

slavery.

To be sure, slavery was to be de-

stroyed by a great upheaval accom-

panied by much human suffering and

agony. But the work was done, the

purification of the nation from that

error was accomplished, and almost

immediately came the birth of a new

spiritual freedom for humanity which

its Discoverer and Founder named

Christian Science. Speaking of this

momentous birth, both of human and

spiritual freedom. Mrs. Eddy wrote in

Science and Health (p 226): "The

voice of God in behalf of the African

slave was still echoing in our land,

when the voice of the herald of this

new crusade sounded the keynote of

universal freedom, asking a fuller

acknowledgement of the rights of man

as a Son of God, demanding that the

fetters of sin, sickness, and death be

striken from the human mind and

that its freedom be won, not through

human warfare, not with bayonet and

blood, but through Christ's divine

Science." When she grasped the

mighty fact so fruitful with blessings

for the whole human race, that God

is the only Mind and Cause, the mis-

sion of Mary Baker Eddy was to

pervade with spiritual vision the dark

clouds of human beliefs, to disperse

these clouds through the reflected

light of spiritual understanding and

to reinstate in human consciousness

the science of Christianity. This

Science of divine Mind, exact and logi-

cal, based upon the supremacy of

Spirit, could, when grasped by the in-

dividual, free him from the penalties of mortal illusions and bring him into conscious and eternal unity with his God.

#### FRUITS OF HER DISCOVERY

After a time the results of her clarified vision and of her grasp of the deep things of God began to be manifested. The sick were healed through her ministrations; the bondage of sin was broken for the sinner; darkened minds were filled with spiritual illumination through her teachings and writings, and she exemplified in her life the words of Jesus, "by their fruits ye shall know them." Guided by her wisdom the movement of Christian Science which she had begun grew apace. Her message refused by established churches, she was impelled to organize a church of her own. The Mother Church was founded in Boston in April, 1879, and has since been followed by a host of branch churches now scattered throughout the civilized world. The Christian Science Journal appeared in 1883; then the Christian Science Sentinel; next the Herald der Christian Science, the German publication; and Mrs. Eddy's last gift to humanity was The Christian Science Monitor, an international daily newspaper, a newspaper whose business is to tell the truth fearlessly no matter how gigantic may seem the evil to be exposed and destroyed. Reading rooms and lending libraries were started and maintained by churches and societies; Christian Science practitioners established themselves in cities and villages, healing the sick and reclaiming the sinner through the prayer which understands the all-power of God. Today the whole world knows of Mrs. Eddy's work. It has not yet grasped the full measure of her achievement but it is beginning to understand the value of her teachings for the redemption of the race.

#### THE TRUTH THAT FREES

The Science of omnipotent Mind which Mrs. Eddy taught in Science and Health is the Science Jesus meant when he said, "Ye shall know the truth and the truth will make you free." What is the truth that is to be known? Manifestly, the truth which makes free is the truth about God and man. Christian Science teaches, as does the Bible, that God is Spirit; that Mind, His universe, is a spiritual, mental universe; and that man is a spiritual being reflecting his divine creator. Christian Science makes a clear and absolute distinction between the universe of God or perfect Mind, and the world of sense phenomena, the mortal, carnal sense of existence which mortals cognize through the physical senses, carrying in its train sin, disease, and death. Since spiritual existence is the only real existence, Christian Science classifies the world of sense phenomena as unreal, false, and therefore, in fact, nothing but illusion.

How do we know the spiritual is true and the sensuous false? We know by the test of demonstration. As the perfection of God, His holiness, beauty, wisdom, and power, dawn upon the illumined thought we are divinely assured of their reality. On the other hand, the evanescent and illusive character of the world of sense phenomena becomes more and more clearly exposed and gradually fades from consciousness. Furthermore, the more clearly we comprehend the things of Spirit, the more surely and completely we can heal sickness, overcome sin, and break the bonds of evil. "God is love," said the beloved disciple.

There is no fear in love; but perfect

love casteth out fear," and love like-

wise casts out all that is unlike love

and enthrones peace and harmony in

undisputed control.

#### THE JOY OF SPIRITUAL LIVING

If we find in God the omnipotent, all-knowing Mind, a never failing refuge from the ills of mortal existence, it will not be a difficult matter to love God and our fellow men and to "Rejoice, and be exceeding glad," as the Master taught us to do. An analysis of our thought will show us that the reason we have failed to attain this joyousness described in the Bible, is because we have not distinguished between right thoughts and wrong thoughts, and consequently we have often become the victims of the latter—even when striving to gain the former. "For," said St. Paul, "to be carnally minded is death; but to be spiritually minded is life and peace." When thought is uplifted and purified

LOST — Tuesday evening, "W. H. S." 1911 class ring; finder leave at Herald and receive reward. 55 16

NOTED SPEAKER  
WILL PRESENT THE  
LATEST FOOD FACTSINJURED MAN IS  
RECOVERING SLOWLY

Harvey Self, who suffered a broken and crushed leg and internal injuries as result of a large quantity of fertilizer caving in upon him at The M. Hamm Company's plant, one day last week, is still in the Fayette Hospital, and is recovering very slowly. He is not yet entirely out of danger.

SEMI-ANNUAL HORSE  
SALE WILL BE HELD  
AS USUAL IN APRIL

The week's interest in war work centers in the address of Mrs. William Ogden Wade, Thursday evening at 8 o'clock at Grace M. E. church. The address will be of the greatest importance in presenting conditions and needs overseas as they now exist.

Mrs. William Ogden Wade.

Washington C. H. for many years has been accustomed to seeing collected together at the Combination Sales Barn large numbers of horses the offering of the Washington Sales Company annual Spring sale.

The dates selected are earlier than usual being April 16, 17, 18, and as already some 50 or more horses have been consigned there is every prospect of at least 200 head being secured.

New York and Chicago have just held their annual sales and prices were the best in years indicating a good demand for racing material. As the local sale has been able in the past to realize as much for stock offered, as its more pretentious rivals an unusually good market is anticipated.

Fayette county has in the past been noted for its superior horses and while the number produced at this time is less than formerly there are some excellent ones still remaining.

The sale will be under the management of Chas. Allen, who has just returned from service with the Remount Division of the United States Army and John Peuse, Vandala, Ohio, will act as auctioneer.

Howard Allen will act as secretary owing to the absence of Major, Rell G. Allen now "Doing his Bit" in France.

Mr. Chester Stands, of Columbus, Ohio and Fred Tegan, of Dayton's Country Club will also assist with the expected result that the sale will be a revival of past sales when buyers were present from all parts of the United States and big prices were paid for Fayette county horses.

Mrs. Wade might be termed a typical American woman, both by inheritance and training. She is of Scotch, English and Welsh descent; four of her ancestors fought in our first struggle for democracy. Side by side with brothers and husbands, her maternal grandfather fought Indians in the early days in the Middle West, both in the Blackhawk War and in pioneering in the then new land of Iowa. Her

grandfather was one of the first to cross the plains in the rush to California in 1849. With such blood in her veins, it is small wonder that Mrs. Wade has given much time of late years to the study of the Americanization of our immigrants, and has written and spoken much on this theme. One of her stories, "The Three Gateways," based on the Americanization work in Los Angeles, has aroused much interest.

After the formation of our Council of National Defense, Mrs. Wade enlisted under its banner and spoke for them continuously in their campaigns for the Second Liberty Loan. She has made several speeches on Women's War Work. Since the first of the year she has been associated with the work of the Food Administration in Washington, and goes out to speak for them with the knowledge of their work which this association has given.

Admission is free and everyone who can should hear this speaker.
